Monthly Overview

The Perry Village Police Department responded to **316 calls for service** during October 2026. Patrol officers remained proactive throughout the month, conducting **118 business checks**, **22 community policing activities**, and 39 **traffic enforcement stops** consisting of 17 **citations**. K9 Pio was utilized to assist North Perry with a narcotics investigation. It is good to see K9 Pio back to working after his surgery.

The department sponsored active shooter training through ALERRT (Advanced Law Enforcement Rapid Response Training). The ALERRT mission and vision are to provide the best research-based active shooter response training in the nation to save lives and protect communities. The Madison School District graciously provided access to the empty Redbird Middle School so officers could participate in this training. This training was at no cost to the Village.

Officer Moore and I will be attending similar free training that integrates responses to a mass casualty incident with EMS and dispatch. This training will be held in December and is also through the ALERRT program.

The first week of October I attended the new police chiefs' training in southwest Ohio sponsored by the Ohio Association of Chiefs of Police (OACP). This was an incredible opportunity to connect with fellow police chiefs from across the state, exchange ideas, discuss the challenges of law enforcement today, and learn about new approaches to leadership, public safety, and community policing.

Lt. Collins, along with Perry High School Principal Niedzwiecki, attended the Ohio Tactical Officers Association (OTOA) Active Shooter Symposium held at Mentor High School. This training brought together school personnel from throughout Lake County and focused on preparing for and responding to critical incidents within our schools.

Continued training and strong partnerships between law enforcement and school officials are essential to keeping our students and staff safe.

Our officers participated in several Trunk or Treat events this past month. We also were at locations throughout the Village on Halloween night. It was great to see all the costumes worn by the kids and parents during these events.

Recognition

I would like to recognize Sgt. Orf, who was recently recognized by Mothers Against Drunk Driving (MADD) during an awards ceremony in Columbus. This recognition reflects his dedication to impaired driving enforcement and keeping our roadways safe. We are proud of Sgt. Orf and his commitment to protecting our community!

Additionally

A speed sign has been purchased this month. This sign will be used at various locations throughout the Village and show the speed of vehicles as they travel. This sign will hopefully encourage residents and visitors to slow down when driving through the Village. The sign also has the ability for the department to track days and times when violations occur.

Respectfully Submitted,

Dan Shook, Chief
Perry Village Police Department
